## City To Force Action For Fire Dist. Funds

Joseph A. Bonacina, Campbell city attorney was authorized by the city council Monday night to take necessary steps to force legal apportionment of Central Fire District assets allegedly due Campbell from dissolution of the Campbell Fire District following the city's incorporatiion, March 28, 1952. The city seeks legally to collect approximately $5,951.52. This is an agreed percentage of $63,371.35 cash on hand of the Central Fire District on March 28, 1952, taxes collected from March 28, 1952 to June 30, 1952, amounting to $83,257.98, and taxes collected from July 1, 1952 to June 30, 1953 in the amount of $272,196.51.

Bonacina said the law requires the County Board of Supervisors to apportion accrued cash, taxes, and property of a district upon incorporation of a city. The attorney said the board had adopted a resolution authorizing the apportionment, but that nothing has been done about it, in spite of repeated requests from Campbell to the Central Fire District, and to the county counsel.

Bonacina said the city of Campbell has given the district every opportunity to settle the apportionment on an amicable basis, but that the District had, without formal notice to the Campbell city council through the city attorney, asked the Board of Supervisors to rescind the resolution authorizing the apportionment.

Bonacina said he had appeared before the Board to argue against the District action, but that the Board rescinded its previous resolution.

At the city council Monday, city officials agreed that further meetings with officials of the Central Fire District and the County Counsel would be of no avail, and agreed that legal action was the only alternative.

**GIRL HEADS STUDENT BODY**—Marilyn Uyeda elected Friday as president of the Campbell Union high school student body will be installed with other elected officers next Tuesday by Laurance Hill, superintendent, during a student body assembly. Those to be installed as shown above are left to right, Gary Lukehart and Richard Kolte, council members, George Kemp, faculty advisor, Miss Uyeda; Joan Oeser, student manager, Vivienne Andres, secretary. Absent when picture was taken were Joan Arnaudo, vice-president and Anthony Schraub, council member.

## Councilmen Gomes, Dahl and Jensen Say They Will Not Seek Re-Election

Three members of the present city council indicated to the Campbell Press today that they would not seek re-election in April, the other two members saying they have not yet made a decision.

Councilman Joseph Gomes said he was reluctant about giving up his council seat but as he was also on the high school board he found the offices took too much of his time. He is a long time resident of Campbell, well and favorably known to everyone.

Councilman J. M. Dahl is building a home near Saratoga and said that he will soon be ineligible to serve on the council here.

Councilman Oliver C. Jensen is the building inspector on school buildings and said he may be away on assignments, therefore feels someone else can hold the office with more regular attendance.

Councilman James Arends said that he had not yet made up his mind about seeking re-election and that there were several weeks yet before the deadline for filing. Mayor Richard Morton also has not stated his pleasure in seeking re-election, as there is ample time yet for filing.

The only other elective offices will be those for city clerk and city treasurer. There will be five councilmen elected in April the two with the highest number of votes to serve four year terms while the next three will serve two year terms.

## Campbell To Get $4,112 In Funds

Robert C. Kirkwood of Saratoga, State Controller today announced at Sacramento that the City of Campbell is to receive $4,112.68 as its share of the Motor Vehicle License fee revenue for the period June 1, 1953 to November 30th. The apportionment is based on a 7,662 population.

Santa Clara County is to receive $118,298.93 as its share based on a 290,547 population. Kirkwood said that half the state's $8,623,482 in Lieu tax is distributed to the 58 counties while the other half goes to 314 incorporated cities of the state. Allocations to other Santa Clara County cities are: Gilroy $2805.66 (pop. 5527); Los Altos $10,017 (pop. 18,667); Los Gatos $2,633.90 (pop. 4907); Morgan Hill $873.31 (pop 1627); San Jose $44,140 (pop. 102,727); Santa Clara $7,610 (pop. 14,178); Sunnyvale $8,359 (pop 15,573).

The "In Lieu" tax is an excise tax for revenue purposes imposed for the privilege of using the highways for vehicle operation. It is levied at the rate of $2.00 per hundred dollars of market value on each vehicle. The tax laws prescribe the methods by which the market value of vehicles is to be established as a basis for "In Lieu" tax assessments, stated Kirkwood.

The current apportionment, Kirkwood points out, represents an increase of $3,199,150 over the December 1952 distribution. This is due chiefly to an increase in the number of vehicles using our State highways.

Mr. and Mrs. GLENN DANIELS of Nelson Way, have had as their houseguests Mrs. Daniel's sister and brother-in-law, Mr. and Mrs. J. WILSON of Anaheim, California.

Auxiliary will aid city planners in sorting, compiling and helping to interpret the statistical data from the coming street survey.

A special Legion Auxiliary guest at the last meeting was Mrs. R. R. Jolliff, 13th District president, who made an official visit.

Members of the Auxiliary will spend this evening, January 21, at the Palo Alto Veterans' Hospital assisting veterans in the preparation of materials for their annual poppy program. Following their hospital visit, the group plans to attend a dinner at the Doll House, Redwood City, according to a club spokesman.

## You Gotta Have Dude Permit Or Long Whiskers

**Martin S. Walsh, former Campbell police judge, and chairman of the OSD Whiskerino contest which started this week with registration at all city barber shops, said today that temporarily appointed local constabulary would apprehend, and, in all probability, incarcerate, in an improved hoosegow, all infractions of the spirit of the beard-growing contest.**

**In other words, the judge explained, anyone who doesn't grow a beard for the celebration must obtain a dude permit which costs one dollar, and which grants the bearer the right to appear on city streets without a beard during the period of the Old Settlers' Day program.**

## New Schools To Be Given Cherry Trees

Kwanzan Cherry Trees are now available as "bare root" or in containers at local nurseries and Campbell Garden Club urged the purchase of as many as possible by people of Campbell and vicinity at a meeting of the tree committee at the home of committtee chairman Mrs. Fred Smith of San Tomas Road.

Following a policy of the Garden Club new schools in the vicinity will be presented with the trees. These schools it was brought out at the meeting include: Hamilton, Cherry Lane and the new St. Lucy's parish school.

Norm Corvello, publicity chairman for the Old Settlers' Day, four day celebration in Campbell, February 19-22 said windshield stickers advertising OSD will be available, free of charge, at all local gas stations today.

Art Jacobson of 58 Jane Anne Way, member of Campbell Lion's Club, member of Campbell Methodist Church and employee of American Forrest Products Company, contracted polio last Thursand, and is now in an "iron lung" at County Hospital, according to his wife.

He complained of a severe back ache, followed by a head ache the next day, she said.

On Saturday, his illness was diagnosed by County Hospital officials as Polio.

Jacobsen is the first polio victim in Campbell this year.

## Carnival Booths Still Available For OSD Festival

Chairman C. P. Klassen announced today that first requests for booths in the Old Settlers' Day Carnival indicate high community interest in the affair.

The first two organizations to submit applications were the Orchard City Grange and the Eta Phi Hi-Y. Many other local clubs have indicated their interest.

Application blanks have been mailed this week to many local organizations and it is anticipated that there will be a complete sellout by the deadline of February 6th.

"It is an exceptional opportunity for any group to raise funds," said Klassen. He added, "Many excellent ideas are yet to be used in these booths. With 90% of the net proceeds going to the organization and the crowd the carnival is sure to draw, I do not see how they can miss."

Anyone wishing to sponsor a booth is asked to contact C. P. Klassen at the high school. Booths will be 8' x 8' or 8' x 16' and are to be located along the covered walkway on the high school grounds.

## C. D. Cutting Pilots SJS Professors On Trip To Death Valley Friday

"Chuck" Cutting, grandson of Mr. and Mrs. Frank Cutting of Harrison Avenue, and senior aeronautics student at San Jose State College was an aerial chauffeur over the past weekend for San Jose State professors, G. A. McCallum, Dr. Gertrude Cavina, and Byron Bollinger, SJS building inspector, on a trip to Death Valley.

The trip was made in a rented plane piloted by C. D. Cutting to make arrangements for West Coast Nature schools. San Jose State College conducts three of these schools throughout the year, one during the Easter vacation, and three during the summer at Mount Lassen, Yosemite and at Asilomar.

**AGOSTHINOS RETURN**

## NEW FREEWAY CALLS FOR FOUR LANE AVENUES HERE

Definite steps toward widening both Hamilton and Campbell avenues to provide for four lanes of traffic within specific limits will be taken by the City of Campbell by the time the contract is let for the new freeway No. 5 by the state with commitments from the division of highways that certain improvements to the Hamilton avenue interchange is provided in the state's plan. This is in accordance with a letter authorized directed to the state division of highways Monday at a meeting of the Campbell city council and in accord with a verbal understanding with Jesse Black, assistant district engineer for the division of highways.

Mayor Richard Morton said at the council meeting Monday that he felt the state would be adamant about enlarging the interchange to an extent of purchasing an additional fifteen more acres of land but that so long as there is no traffic hazard on the interchange the state might provide left turn signal lights and four lanes would be set up on the interchange to Hamilton avenue. State enginers have already made a traffic count and set up a project count which they feel justifies directional routing.

The letter from the city agrees to set aside some road money to ultimately widen Hamilton avenue from Winchester avenue east to the beginning of the interchange, the state to continue the widening to the easternmost limits of the interchange.

The span of the freeway over Campbell avenue east of Los Gatos Creek would be sufficient for four ten-foot traffic lanes and two five foo walkways. City engineer Mark Thomas said that by the time the state is ready to let bids the city will have to take definite steps toward widening Campbell avenue to four lanes, and that one of the problems would be the width of the bridge structure over Los Gatos Creek.

Other matters before the council Monday: Copy of letter to the state department of finance from the department of public health indicating that sewerage facilities of Campbell are essentially adequate and recommending favorable action on use of gas tax funds for traffic signal light at the Hamilton avenue and San Jose-Los Gatos road intersection.

Mayor Morton, Councilmen Arends, Dahl and Gomes will attend the League of California Cities meeting tonight in Burlingame, and Councilman Dahl will attend the intercity council meeting in Santa Clara next Wednesday.

City Attorney Joseph Bonacina will report Monday on whether a city license is required by Old Settler Day committeemen to operate the carnival, booths and games of skill on the lawn of the high school, and how the new ordinances concern temporary closing of streets for a parade and permit of a banner across a street.

W. P. Fuller Co. was low bidder on 200 gallons of white traffic lane paint, their price of $2.60 per gallon being one cent and six and a half cent per gallon less than were those of other bidders.

Dorothy Trevethan, city clerk, said she had been advised by the county registrar to prepare for 3000 voters in the coming municipal election, there having been 2485 of record as of January 12 and registration continues until February 15th. The thirteen precincts may be consolidated to for or possibly three, but no immediate action will be taken until registration is complete.

The council referred to the planning commission the request of Sanitation district No. 4 for permission to store gravel and plant mix on county owned property on the bank of Los Gatos Creek near Campbell avenue, the city attorney stating that such use is permitted under the zoning ordinance.

Stephen Goodman, district manager of Sanitation district 4 and S. Williams, deputy county counsel will meet in the district office on Campbell avenue tonight to work out a new sewer contract for the city.

## BIDS ARE OUT ON NEW DOVER GRADE SCHOOL

Bids for Dover School, ninth school in Campbell Elementary School District, will be received at the district office, 11 North Third Street until the fifth of February when they will be opened and considered, Lawrence E. Means, Clerk of the board of Trustees, said yesterday.

Bids must be presented in accordance with plans and specifications for said work, which are on file at the office of the architects, Higgins and Root, 220 Meridian Road at Park Avene, San Jose, he said.

The new school, planned for a site south of Hamilton avenue between Kuehnis Estates and Hamilton Square, subdivisions is planned to have nine classrooms, including two kindergartens and administrative office. It will relieve the Hamilton School area, and, to some extent, the Moorpark School area, William C. Henley, district superintendent said.

Construction is expected to start about the first of March. School officials hope for a September, 1954 completion date.

The new school, Henley said, as in the case of other schools in the Campbell district has more pupils than it can accommodate before construction is even started.

The school will be financed jointly, according to Henley, from the remainder of local district bonds and State Building Aid.

## CREDIT PERILS OUTLINED FOR ROTARY CLUB

Campbell Rotary Club, at their regular meeting Monday noon, were informed of the work that Campbell Union High School is doing in the 1954 March of Dimes campaign by Miss Ann Chambers, who preceded guest speaker Geo. C. Peacock of the Credit Bureau of Santa Clara Valley, whose subject was, "Credit Perils for 1954."

Peacock said that credit will be much more important this year than it has been in the past few years, and will become more so, if the expected tightening of business develops.

The speaker outlined aspects of the credit business and stressed the most effective methods for settling delinquent accounts. Peacock said a form notice is better than a written notice to a delinquent customer because the debtor does not feel he has been singled out. A telephone call is also very effective, Peacock said his experience indicated.

The speaker also cautioned business men to continue inviting cash business from delinquent customers, at the same time making arrangements for payment of older debts.

Cel Gerevas was chairman of the day, and introduced the speaker. President Emerson Arends announced the next Club Assembly for February 8 at Villa Velice at 7:30. He urged a one hundred percent attendance. There is to be a joint meeting of the Campbell Lions, Kiwanis and Rotary clubs on May 11 at the Country Woman's Clubhouse.

At the last inter-club meet, the Lions were hosts. At the coming meeting, it was announced that the Rotarians will be the host

## THE CITY ELECTION

It won't be long now until filing time for candidates seeking election to the several municipal offices will be with us, the dates being from the thirteenth of February to the fourth of March. The Council, elected in March of 1952 when Campbell was incorporated, has been an organizational body with terms limited to two years.

Now a permanent structure of terms is to be set up, the two candidates receiving the highest number of votes to serve four year terms and the three with the next highest number of votes to serve two year terms, there after each term to be for four years and with an election to be held each even year.

There has been much accomplished in the first term by the organizational body, and many hours of honest, tireless effort given by responsible men. Three of the five indicate today they may not seek re-election. Filing time is three weeks off, too early to force commitments from incumbents as to their intentions.

It is somewhat of a thankless job to serve as city councilman, but there is satisfaction of being an important cog in the wheel of progress which is moving a city like Campbell into a sound, progressive, cultured entity. It is the ground work now being done on which the city of tomorrow will be built. Today's children will be tomorrow's civic leaders if opportunities are here for them, and they seem to be. Mayor Richard Morton has already indicated at a council meeting that several candidates for the office of councilmen would be welcomed so that the ones best qualified may be elected.

## THE HIGH COST OF STEAKS

You may be one of those wondering why first class steaks sell for a dollar a pound or more in the markets while live steers bring but a quarter as much on the hoof.

Only about thirty pounds of the average 1,000 pound steer are the fancy steaks selling at top prices. The average retail price for all the products from a U. S. choice grade steer of that weight was thirty cents a pound. The heavy demand for the small supply of fancy steaks has sent the prices up. In the last two years the price of these steaks dropped fourteen cents while other cuts such as ground beef and chuck roast dropped twenty-two cents, our spy reports.

Cattle feeders feel lucky if they make a profit of two per cent while packers say they make less than one cent on each dollar of sales. The retailer's markup is around sixteen percent, much of which is for overhead costs. That is the explanation and is said to cover everything, but we still don't know how come our little ol' fillet knocks our shopping dollar for a loop.

## CELEBRITIES ON THE MARCH

Now that Marilyn and Joe are married seems we can now turn attention to things of lesser importance such as taxes, the peace conference and the atom bomb. Woder why, though, they had such a hard time getting privacy. They gave the press and the news reels about half hour notice of when the ceremony was to be performed and the word only had to go a hop, skip and jump to be set up, then the newlyweds stumbled into a room filled with people and had to make an escape down a long hallway, lined with people and away they went to Pebble Beach where several thousand more people were on hand to take in the Bing Crosby golf tournament and Joe bumped into his old boss, Lefty O'Doul and a lot of movie fans on hand to see Bing, Bob Hope and others, also got a glimpse of Marilyn, then to Paso Robles where a few reporters were on hand and on to lose themselves on Vine Street and Hollywood Boulevard in film land. Nice thing about it all is that the movie studio, press agents and all, decided after much pondering to give out the word that all is forgiven and that Marilyn can come back to start her role in the new picture, but we're not going to give you the name of it because they want it should be kept a secret, or something.

## GOOD WAGES MUST BE EARNED

When Congress meets again, efforts will be made once more to raise the federal minimum wage, which applies to all interstate commerce.

Many will favor this because of honest sympathy for the lowest-paid workers. But we would be foolish indeed if we blindly refused to consider the dislocations and the problems a higher minimum inevitably creates.

For one thing, various businesses, retailing among them, have job opportunities, often on a part-time or seasonal basis, for unskilled workers. The value of such workers is obviously limited. Should the wage become too high, fewer of them will be employed and businesses will get along as best they can with minimum payrolls.

Most important, when the bottom wage is raised, forces are put in motion which tend to boost wages all along the line, right up to the top. Higher-paid workers see no reason why their wage differentials should not be maintained. Then prices and costs soar again, and the consumer feels another bite in the pocketbook.

Good wages are desirable — but they must be earned to be sound.

## A WELCOME CHANGE

## ABOUT EATING

Every day the world population is growing at an estimated rate of 70,000 persons. That's nearly 3,000 per hour. For a year it comes to more than 25 million —twice the population of California. The trouble is that world food production is not keeping pace and even now half the people on this globe are underfed. Here in America we are plagued with food surpluses and we have given away billions of dollars worth of our abundance to nations abroad. But the basic need is for a greater food production elsewhere throughout the world — or for birth control. Advances made in medicine and technology are bringing longer life to people, and as these advances more adequately reach such overpopulated areas as India and China, the problem of food will grow more acute. Certainly the same intelligence which makes medical and technological improvements possible is capable of finding the means of producing and distributing more food.

## BORN 30 YEARS TOO LATE

An effervescent gentleman of the used car fraternity by the name of Edward Shapiro, but who prefers to be known as Horsetrader Ed, is on trial in San Francisco for tax evasion. The Government claims the Horsetrader ducked paying $12,487 mainly by pocketing rents he collected from various of his establishments.

To the charge, the bewildered Horsetrader, sans boots, spurs and ten gallon hat, told the court:

"I pocketed it. It seemed like an easy way to do business. You get a dollar and you spend a dollar. It eliminates a lot of bookkeeping problems. I never felt that I was doing wrong. It was my money and my business. I didn't feel that I had to account to anybody."

Poor Horsetrader Ed. His money and his business! The ole' cow poke of Van Ness Avenue, we're afraid, is living in the past. Nowadays, pardner, Uncle Sam sees to it that no one runs his business and spends his money to suit himself.

# The Campbell Gambol

HAMILTON AVENUE already destined to be one of the important thoroughfares in Campbell by virtue of it being the ingress and egress route to the new freeway, which means also that it will be a four lane highway, has to have its foundation explored a little more . . . seems that parallel with Winchester avenue there is a hidden curvert and near that is a dry well, the latter having been responsible for a dip which impounds storm waters. . . council decided to make a valley across Hamilton like the one on Campbell avenue at the Winchester intersection, so that storm waters can be carried off, but some of the old timers told about a perfectly good culvert having been put there for the same purpose but had been cut off during some excavation work . . . a Geiger counter may have to be used to locate the buried culvert . . at another point on Hamilton east of Winchester a cement truck is said to have caused a dip because the road passed over an abandoned cistern.

KINGS AND QUEENS for old Settler Day in Campbell are to be selected from both the High School and the Elementary Schools of Campbell according to Laurance Hill, general chairman. . . William Henley and Wayne Fontes will see about the king and queen from the Grammar School while Phil Maxfield will help in the High School selection. . . the two kings and the two queens will have important parts in the day's festivities, Hill said.

PAPPY WALDORF, coach of the University of California football team is to be guest speaker for the sports award dinner in the Campbell High School cafetorium on the evening of February 4, and of course Bill Means will be on hand to do the honors as he is chairman of the boys and girls committee for the Kiwanis club which is sponsoring the meeting, even though he got the Bronx cheer from some pro-Stanford club members on his making the announcement. . . the award goes to the Campbell football player voted worthy of it . . . a limited number of tickets will be made available to the public. . . the Campus Echo of the high school reports plans this week by Jody Lacher and Ellen Stepovich to board a tramp steamer this Summer for Paris then cycle through Europe and return in time for the September classes. . . also from the Echo, these. . . .

### LINES TO A DAUGHTER

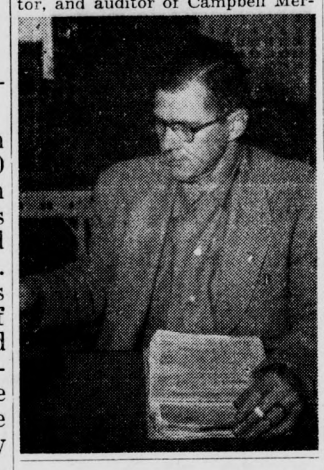
One of the things that you really should know
Is when to say "yes" and when to say "no".
There aren't any textbooks, there aren't many rules
The subject's neglected in orthodox schools.
You can't be consistent; there's often a reason
For changing your mind with a change in the season.
You may be quite right in accepting at 7
Suggestions you'd better refuse at 11.
Perhaps you'll consider these tentative hints:
"No" to a dirndle of highly glazed chintz,
"Yes" to the bashful young man at the dance,
"No" to the man who's been living in France,
"Yes" to a walk in the park in the rain,
"Yes" if he asks for a chance to explain,
"No" to all slacks unless you're too thin,
"No" to that impulse to telephone home.
"Yes" to a baby and "No" to a bore,
"No" if you're asked if you've heard it before,
"Yes" to a Saturday, "no" to a Monday
"Yes" to a salad, "No" to a sundae
Remember, my darling, careers and caresses,
Depend on your choice of "no's" and of "Yes's".

# Profile of The Week

*This column attempts to acquaint Campbell residents with the background of most of its leading citizens, to make for a greater interest in the activities of the Campbell area.*

*Pictures from the files of the Campbell Press will be drawn, by lot, for the first of the articles. When this supply is exhausted, pictures of newer residents will be taken, to run in conjunction with stories.*

William B. Enochs, secretary-manager of Campbell Chamber of Commerce, master of Charity Lodge, F&AM, Campbell city auditor, and auditor of Campbell Mer-



chant Stamp Association, is a busy man these days. A popular figure in Campbell civic and social affairs, he lives in a maze of figures, and accounts at his office in the Chamber of Commerce Building on North First Street. Now that income tax time is upon us, most families can sympathize with Enochs, who is busy with his own and those of other families, as well as accounts of various city organizations.

Enochs has a way of getting away from it all, though. He is an avid hunter and fisherman, and every year, tales of his hunting prowess circulate through the town. One of his most prized possessions aside from his battered World War II jeep which he uses on his hunting and fishing excursions, is his home-made combination Springfield-Enfield .30 calibre rifle equipped with a Weaver K-4 scope. Many a hunting companion has deferred a difficult, long range shot, to Enochs when in the field, and he has yet to fail to come through.

Enochs came to Campbell in 1942, from San Jose where he was office manager of the San Jose Hardware Company. Before that, he was an auditor for the State of California.

Enochs is a native of Reid, Mississippi, where he attended Derma, Mississippi, grammar and High School. He entered the University of Mississippi as a premedical student, but later changed to an accounting and commercial law course. He was a member of the University of Mississippi football team, as tackle and center during the years 1926-27- and 1928.

Following his graduation in 1928 he moved to Hopeville, Virginia, where for the next two years he was general manager of a building materials firm. It was there, he said, that he met and later married his wife, Mary, at that time a bookkeeper in the materials firm.

After his marriage in 1930, the couple came to San Jose, where Enochs owned and operated the Burns Mattress Company.

They now have two children, Bobbie, 20, a sophomore business administration major at College of Pacific at Stockton, and Bill, Jr., 12, a student at Campbell Grammar School.

In Campbell Enochs opened his own accounting office at his home on 240 South Winchester Road. He moved into the Campbell Chamber of Commerce office in February of 1953.

When we came West,
we found out . . .
Gas and electricity are cheap in California
say Mr. and Mrs. John Silva, of San Leandro, shown with their daughter
How P.G. and E.'s low rates save the Silvas money
The Silvas' P.G. and E. bill for a recent month was . . . $13.09
In their former home the same amount of gas and electricity would cost . . . $25.68

"Before we moved West in 1952," says Mr. Silva, "I came out on a visit. And I surely liked what I saw: beautiful scenery, perfect weather, pleasant living. After moving, we found California living has still another advantage—that gas and electricity cost far less here than where we used to live."

Prove for yourself how really cheap gas and electricity are in California by comparing P.G. and E.'s combined rates today with 1938. You'll find they are actually *lower* now than 16 years ago. So let bargain gas and electricity serve you in more ways . . . make your life easier and more comfortable.

## School District Teachers Activities

*(From the "Campbell Bagpipe," local C.T.A. publication)*

Gleaned from the Campbell Bagpipe, a publication emanating from Campbell Elementary School district Parent Teachers' Association: Cypress' MARY ALICE SMITH and husband spent part of the holidays goose hunting at Tule Lake and came home with the limit. Hamilton parents and teachers are busy "collecting donations" toward a hand knit dress—proceeds to be used for playground equipment. Quito teachers invited the San Tomas faculty over for cherry pie and coffee recently. Party was held in the Quito Kindergarten room.

Rosemary surprised Cherry Lane with a "school warming" after school Friday and presented them with a planter for the teachers' room.

The moving bug has hit Moorpark. The JOHN DUNCANS are now at home on Union Avenue and LOIS HOYT and husband are located on Marianna Lane, where the school faculty recently presented them with a camellia plant at a housewarming.

PAULINE GARDNER will be missed by her co-workers and the children at San Tomas. She is planning to present her twin boys with a sister this spring. Mrs. LILLIAN HUGHES is to take Pauline's class at school.

BEVERLY CANTERBURY from Cypress and her husband traveled to Phoenix during the holidays via Apple Valley. STAN ADAMS from Rosemary may be seen these days riding around in his new Chevrolet Bel Air.

Three new teachers are being made welcome at Moorpark. They include LAURA LEE WILSON (2nd), MARY ELLEN BRAUN (3rd) and MARIE GROMO (6th). Members from the Administrative offices provided the first teachers' treat at Cherry Lane, and twenty-seven people were present.

JACK AND SARA FISCHER from San Tomas spent a few days at Las Vegas during vacation.

# CAMPBELL HI-LITES

by Bob Olson

Last week you could see democracy in action all over Campbell High School. Even though there's some question about tthe validity of anyone over 21 voting for national offices, school posts can make for some mighty interesting political campaigning. After hearing stump speeches in Tuesday's assemblies, over 85 per cent of the student body went to the polls Friday to elect a new student body president and three more student council members. The new prexy is a girl, Marilyn Uyeda, and her three new co-workers all boys: Gary Lukehart, Tony Schraub, and Dick Kolte.

You'll look a long while before you meet a finer representative of modern day youth than Marilyn. She's earned all these complimentary adjectives: cute, sharp, observant, and yet soft-spoken and genuinely humble (how many women do YOU know who fit this description?) Though short of stature, Marilyn is never short on ideas, and is, we suppose, a perfect example of the old adage, "Large families make unspoiled children." For Marylin is not the only child at Route Two, Box 520A Harriet Avenue, but is one hardworking member of a family of beauty operators, apple and raspberry ranchers, cement masons, and students from seventh grade through college. Her ambition is to become a registered nurse, and it would appear that she has all the qualifications for such a career. She has a mind bent toward science (her favorite school subjects have been biology and chemistry), and if she "ever lives through English IV," Marilyn has hopes of gaining a lot more education.

Last Tuesday's assembly was the best we've seen this year. The 12th Naval District Band plays fast, slow, loud, softly, sweet, and brassy. They played one number after another without a hitch or pause, running the gamut from a symphonic march to New Orleans blues, and running the shivers up every spine in the auditorium. What an inspiration a program like this must be to our own school musicians; our fellows and girls will never hear a more bell-toned trumpet, smoother trombone, or throatier clarient. The applause was the loudest we've yet heard in the Campbell Auditorium and richly deserved.

Mrs. Edna Flagg, our coordinator of audio-visual aids, came back inspired from last weekend's three days of meeting "with the AV cream of the state" in Santa Rosa. But then, let's let her tell about it.

"Everything was perfect. We learned on the way up and back as well as while there. I drove up with Mr. Barret Patton, our county AV director, Mr. Honor O'Connor, director in Santa Cruz County, and Mary Louise Zingheim of the San Jose City system. We were part of a wonderful group of 600 librarians, supervisors, and AV consultants and saw a lot of Santa Rosa as well as all the new overhead projectors, filmstrips, turntables, records, opaques, and library displays. I was stimulated by all the new devices, but came back more convinced than ever that no school anywhere has a better AV program than we have right here at Campbell High."

Drama director Ken Wallace hopped back into the spotlight today when he finally announced the name and dates of this year's Senior Play. "THE MAN WHO CAME TO DINNER" is the most ambitious production we've ever attempted; it presents a real challenge to tthe acting ability of this year's seniors and should provide more laughs than anything we've ever done. I'm visiting all the U. S. History classes tomorrow to steam everybody up!" he said.

Wallace has been steaming people up for quite a while now—and he'll undoubtedly do it again. Script books are available to any senior and first tryouts for the play will be held on January 28th and 29th. On Monday, February 1, the most promising candidates will get a second chance, and then in the assemblies of Tuesday, February (, the complete cast will be announced to the student body. As usual, the chosen few will enjoy a potluck dinner built around a play discussion. This year's play should really be dedicated to Wallace's bigger production; he's mighty proud of the fact that Ken Wallace, Jr., will be born this Summer. But then you had better be making your own plans. "THE MAN WHO CAME TO DINNER" will play the Campbell High Auditorium two nights, Thursday and Friday, February 25 and 26.

What some are already calling the best high school basketball teams in northern California are playing their first home conference games of the season in our gym tomorrow night. Note that we said teams. At this writing, both our A's and B's are undefeated so far in conference play, and if we get by Mountain View tomorrow, the games next week at Lick might well be for conference titles again. Both forward Ken Beth and center Tom Hansen looked great at Morgan Hill last week as our Bucs made mash of the Live Oak Acorns. But after squeezing by Los Gatos in the last minute of play the way they did, Mountain View's Eagles won't be as likely to roll over and play dead. See you in the gym tomorrow night att seven?

Mr. Klassen's Business Law Classes will never forget last Friday, for that was the day they all "went to court." Watching Judge James in action at Superior Court, they came away with four ideas: (1) Crime doesn't pay; (2) San Quentin is no place to spend the best years of your life; (3) the difficult cases are solved immediately; the impossible takes a bit longer, and (4) the judge is king over all he surveys. As one of them put it, "Being in court is like seeing an accident; it slows you up and starts you to thinking."

## St. Lucy's Mother's Guild To Hold Bakery Sale January 31

Committee members assisting Mrs. O'Brien at this affair will be: Mrs. Lyle Struss, Mrs. Norbert Weslow, and Mrs. Frank J. Callahan, Mrs. Odes Walton, Mrs. Edward Grassheider, and Mrs. LeRoy Howell.

## Buccaneer Cagers Drop Live Oak; Beth Scores 14

Buccaneer Cagers defending SCVAL champions and favored for a repeat performance in 1954, cut anaother notch on the rough road to Santa Clara Valley Athletic honors Friday with a 64-37 victory over Live Oak High School. Buc lightweights preceeded their teammates with a 47-42 win.

Neither the opposing varsity or the Live Oak Lightweighs threatened at any point in the two contests. Buc varsity lead 15-10 at the end of the first quarter; scored 23 points to Live Oak's seven in the second period; 13 in the third period to Live Oak's 11; and the Bucs scored 13 to Live Oak's 9 in the fourth period.

Thirty-six uniforms have been ordered, and will outfit both the varsity and lightweights for all home games. While playing away, Robinson said the squad will wear its regular uniforms of darker material.

**OLD SETTLERS DAY**

dent, presided over the meting.
In our city of old Campbell
In the tang of the sweet salt air,
They meet to renew old memories
Of a world that was young and fair;

Their heads are crowned with silver
Boys and girls of a by-gone day,
But the wheels of time turn backward,
Again they are young and gay.

Hand clasps hand in communion gone years;
Happy thoughts of the long
Heart beats to heart in gladness
That is close akin to tears.

All wordly veneer is forgotten,
The Judge is just "Jim" to the boys,
The lad who played and worked with them
Sharing their sorrows and joys.

Gone is the stately Matron
'Midst these friends of long ago.
Once more she is just "little Mary"
With Tom her devoted beau.

They linger on til the twilight
Reluctant from old friends to part,
Then each goes forth to Life's battles
With a happier, lighter heart.

# FOXWORTHY AVENUE SCHOOL CONSTRUCTION MAY START IN APRIL IF FUNDS ARE APPROVED

Delos M. Bagby, superintendent of Cambrian Elementary School District looks for construction of the first project of the district school expansion program—Cambrian School No. two at the Foxworthy and Ross avenue site—to start sometime in April, and to finish in November of this year, if all goes well.

Bonds were voted by residents of the district, December 15, which made available $200,000 for the building program. Contemplated at this time, Bagby said, was construction of the Foxworthy and Ross avenue school, as well as one at New Jersey and Harris avenues. A third school, on a site yet to be purchased is in the planning stage.

Transposing the wishes of the voters of the district in regard to the building program into actual cash, and tangible construction progress, occupies the major portion of Bagby's working time, as well as that of school board members, Frank Steindorf, Norman Houge and William C. Sartorette.

But early construction of new district schools, Bagby said, is dependent on many and varying factors. He listed the steps which have to be taken before money is finally available for the construction program: (1) A transcript must be drawn up in resolution form certifying that the election is complete after the canvass of votes. (2) Transcript must be checked and approved by a Bond attorney. (3) Bonds must be printed. (4) Santa Clara County Board of Supervisors must advertise for the sale of the bonds. (5) Bonds must be purchased by a Bond company. (6) Money must be deposited in the county treasury.

In the meantime, Bagby continued, (7) the school must submit its application for state funds to Sacramento, in competition for priority with all school districts in the state seeking the same aid. (8) Working drawings of school buildings must be drawn up and submitted to the State Planning Office, Division of Architecture, in Sacrament, for approval. (9) Corrected plans must be resubmitted to Sacramenta for approval. (10) When State funds are approved, construction bids are posted. (11) Bids must be approved from Sacramento.

Even when money is finally available and all official procedures have been complied with, imponderables such as weather, labor, strikes, material shortages and other time consuming factors enter the picture, Bagby said.

Bagby said he was confident, however, that approval of up to $600,000 in state funds for the Cambrian project would receive high priority, under the act which makes funds avaiable for districts of expanding school population and staatic assessed valuations.

## LETTERS TO THE EDITOR

**Opinions expressed in this department do not necessarily reflect the editorial policy of this newspaper.**

Editor,
Campbell Press

We would like to take this means to thank all the warm-hearted citizens of the Campbell area for their generous outpouring of gifts during our Christmas "Toys for Tots" program.

The children who received the toys were most appreciative—had it not been for these gifts, the hearts of the children would have been heavy, and their disappointment great, on Christmas day.

Although it is hardly possible to thank each donor individually, we would like to express our appreciation for the wonderful cooperation we received from the following public-spirited organizations:

San Jose Exchange Cub, The Oil Information Committee, The PaloAlto-Menlo Park Optimist Club, The Cub Scouts, The Boy Scouts of America, The Fire Chiefs and their men, The Parent Teacher Associations, Church groups and Welfare Agencies.

We wish also to express our appreciation for the great amount of cooperation offered by the staff and management of the Campbell Press.

We hope we will be able to work with our fellow-citizens of the Campbell area in future community projects of this kind. The experience, for us, has been most satisfying and inspiring.

Again, our thanks to everyone for making "Toys for Tots" a most successful Christmas program.

Sincerely,
Major JOSEPH A. REGINATO, USMCR,
Commanding Officer

Organized Delivery Company,

In announcing these appointments Joseph Rogers, President of the Bank, stated that these advancements were in line with the progressive policy of the bank in expanding its services to the community.

Mr. and Mrs. Hayes live on Orchard Road in Saratoga.

## Saratoga Dickers For School Site

A ten acre site northwest of the business section in Saratoga, opproved by the State Department of Education will have on it a third grammar school if trustees of the Saratoga Elementary School district are successful with their negotiations with property owners. Dr. John Cox and Joseph Caldwell, members of the board of trustees, are negotiating for the purchase of land, which could if necessary, be acquired by condemnation proceedings.

Superintendent Dan Ungaro said that the State Department's field representative, Edgar Parsons, has predicted that by 1955 Saratoga district would be eligible for state aid in building six classrooms and kindergarten facilities. Parsons also recommended building on the site before enlarging the new Fruitvale School.

At present the district has not set aside funds for the third school. Two suggestions have been made, however, (1) that the district sell an excess 10 acres at the Fruitvale site, (2) that $24,000 scheduled to be used for building a Fruitvale School administration building be used for land purchase.

# ONE HUNDRED YEARS OF PROGRESS TO BE THEME OF OLD SETTLERS' DAY

Theme of the 62nd annual renewal of the Old Settlers' Day parade will center around 100 years of progress in the community, it was decided at the second meeting of OSD committee heads Tuesday evening in the office of genreal chairman Laurance J. Hill.

Suggestions for an OSD theme ranged from a pioneer setting to one in which the Campbell orchards and the "Orchard City" would predominate.

Ira H. Grim, parade chairman, reported at the meeting that a County Fur Breeders Agency had been the first to submit a parade entry, had taken advertising in the OSD souvenir program, and had agreed to offer $1,000 worth of chinchillas as a carnival door prize in addition to an interview with the winner on a television program.

Martin S. Walsh said arrangements had been made with barbershops in the city to register all entrants in the whiskerino contest. Whiskeino contestants must register with barber shops in the city, Walsh said, but must be clean shaven when they register. Any male capable of growing whiskers and appearing on Campbell streets on Old Settlers' Day with a clean shaven face will be required to wear a red tag and will be fined $1.00 committeemen agreed.

Two hundred red and blue neckties replete with covered wagon and other Old Settlers' Day insignia have been ordered by the publicity committee under the direction of Norm Corvello, and will be on sale before the celebration.

Trophies and ribbons for parade entrants have been ordered, parade entry blanks have been mailed, mounted groups and military organizations have been contacted and judges for the paraade are being lined up, Ira H. Grim, parade chairman reported at the meeting.

Ken Robinson, chairman of the dance committee, was authorized to contact and engage Karl Bruhn's six piece orchestra for the 9-12 affair the night of February 19.

During the performance of the Footlighter production, "Under the Gaslights", members of Campbell Kiwanis Club, under the direction of Ethan Lanphear will cavort in the theater audience in old fashioned costumes offering popcorn and other delicacies for sale.

Next meeting of heads of committees will meet Tuesday, January 26th at 1:45 at the Country Woman's club following the Kiwanis club noon time meeting

## Bucs Lose, 39-35 To Salinas Here In Non-Leaguer

Campbell Cagers, undefeated in league competition, lost 39-35 to non-league Salinas Cowboys in the Buc gym Tuesday, their second loss in 12 starts.

First Campbell High defeat of the season was inflicted by Salinas on their home court near the start of the season. Buc lightweights lost the preliminary 44-35, but did considerably better, coach Bert Robinson said, than they did earlier against the same club when they hobbled home 20-point losers.

Robinson described Campbell scoring against Salinas as "Cold".

"In the first half, for example, we sank only ten percent of our shots—three outof 30—and in the second half only six out of 18—or thirty per cent—were good," he said.

Both clubs were off on free throws, he said.

"Out of 28 attempts for both squads, we sang 11, and Salinas sank 13," he said.

Salinas picked up an early lead and held it throughout, and while the Bucs picked up speed in the third and fourth quarters they couldn't make up the four-point deficit.

## Cambrian Men's Club Sees Films

A program of educational value arranged by Paul Lozar and Thompson Mead of Cambrian School faculty was presented at the January meeting of Cambrian Men's Club Tuesday evening in the Cambrian School Cafetorium.

A demonstration of teaching with educational films as done in the classrooms was presented by Messers Lozar and Mead.

Entertainment part of the program consisted of a film "Nomads of the Jungle".

## New Trends In Tax Reporting Told At Kiwanis Meet Here

Kenneth Wood, a tax expert engaged by the University of California to set up a plan for school board accountancy and to teach the course, told members of the Campbell Kiwanis Club at a meeting Tuesday noon here that proof requirements may be much more rigid next year on business returns involving travel, entertainment and advertising expenditures. He said though that working mothers may get a break by being allowed credit for engaging baby sitters and other helpers while the mother is away from home at work.

Woods, who was the guest of William Enochs said that tax trends may be toward lower rates but that proof requirements will be more exacting. He saw little hope for a return to the pre-1940 tax structure until the national debt is substantially reduced.

Diane Bowman, Cambrian Park student, who was the girl state representative from Campbell High School, told of work being done today by the High School in spearheading the March of Dimes drive in Campbell. More than forty dollars was collected by Miss Bowman from Kiwanians present at the meeting for the March of Dimes cause.

While Campbell has a quota of $2500 in the March of Dimes Drive which is bing directed in 1954 by the Campbell High School students, just a little over $300 has been collected to date. This has been from spot donations by clubs where speakers have appeared, the main source of the donations being yet to come from coontainers left in stores, schools and other places.

Joseph Gomes is to be program chairman next Tuesday and will have as guest speaker, A. P. Hamann, city manager for San Jose, who will tell of conditions in Germany as he observed them on a recent visit.

## Wet Weather Contributes To Car Crashes

Wet streets and poor visibility probably were contributing factors in a series of minor automobile accidents in the Campbell area over the weekend according to California Highway Patrol.

There were two head on crashes, one Saturday on the San Jose-Los Gatos Road south of Union, and one on Union Avenue, Sunday south of Woodard. In Saturday's accident, cars driven by Augustine Freitas, Jr., 26, from Santa Clara, and Frank Tillotson, 27, from Los Gatos suffered front end damage, according to CHP, but drivers and car occupants escaped unhurt. Front end damage was also reported to cars belonging to Jose Benavidez, 25, from Santa Clara, and to that of Robert Kelley, 33, of Los Gatos in a minor head on collision, Sunday, although neither driver was hurt, CHP reported.
